

● Magic'Cliché

Thanks to its separation, sliding and anti-static properties, **MAGIC'CLICHÉ** will:

- Avoid plate ink built-up during printing run that downgrade quality and productivity (machine stops to clean the plates),
- Make the plates easy to clean after printing,
- Extend plates life by protecting them from ink and solvents aggressivity.

Instructions of use:

Spray on all surface of the plate, let dry 3-5 minutes, print, that's all!

MAGIC LINE

The MAGIC LINE products range has been designed to offer you fast, efficient and economical ways to improve your productivity.

● Magic'Lox

To clean all inks and varnishes in a flash!

MAGIC'LOX is an easy product for difficult jobs. Keep some everywhere you need it!

For anilox, chrome rolls, plates, doctor rolls, machine parts...

Any dirty surface that should be cleaned quickly!

Instructions of use:

Shake, spray, wipe... That's all!

The aerosol packaging is:

- An easy and practical use (no time lost)
- A precise quantity (no waste)
- Recyclable
- Ozone layer friendly (CFC-free)
